SKILLS

- ❖ C++
- ❖ JAVA(Basic), OOPS
- ❖ Python, Machine Learning
- ❖ HTML, CSS, Javascript (Web Development)
- ❖ SQL (DBMS)

EDUCATION

- ❖ B-Tech CSE-AI | Indira Gandhi Delhi Technical University For Women(IGDTUW) *CGPA: 8.2/1stYear(2023)*
- ❖ XII (CBSE) | New Green Field School, Alaknanda *95.4%|2022*
- ❖ X(CBSE)| New Green Field School, Alaknanda *91.2%|2020*

EXPERIENCE

Completed 8- week Summer Internship on Python and Machine Learning. [Certificate](#)

ACADEMIC PROJECTS

- ❖ **Medical Conditions/ Diseases Predicting System using ML**
The system predicts medical conditions of patient based on symptoms. Helps in early detection of many life threatening diseases. Implemented in python using Random Forest algorithm and supports healthcare decision making.
- ❖ **Bank Fraud Detection System Using ML**
Developed a Fraud Detection System that flags a transaction fraudulent or non-fraudulent based on customer's historical data, amount debited, credited, bank balance loans and transaction method. User Interface has been designed using html and CSS, backend by flask and Python for model training.

POSITION OF RESPONSIBILITY

EM member at IEEE, PR and Content member at Optica, Sponsorship Member at Taraangana

ACHIEVEMENTS

- **Participated in multiple Hackathons:** Flipkart GriD 6.0, WoodPecker's Hackathon, Rebel Food's EatSure Cloud 2024, Myntra HackerRamp, Innovortex. Qualified to Round 2 in Innovortex (Top 15) and Woodpecker(Top 300).
- **JEE Mains and JEE Advance Qualified:**
JEE Mains rank- 35584(96.9 percentile)
JEE Advance rank- 20661
