EDUCATION

Bachelor of Technology- Computer Science Engineering in Artificial Intelligence Indira Gandhi Delhi Technical University for Women	2023 – 2027 CGPA - 8.54
Senior Secondary New Green Field School	2022 95.4%
Secondary New Green Field School	2020 91.2%

SKILLS

Technical Skills

Programming Languages- C++, Python
Web Dev- HTML, CSS, JavaScript, ReactJS
Machine Learning
CS Fundamentals- DBMS(SQL), DSA(C++), OOP, OS, CN

Soft Skills

Leadership
Management and Team Work
Problem-solving
Communication

PROJECTS

Medical Conditions/ Diseases Predicting System using ML 	09/2024
- Developed and implemented a machine learning model using Binary Dataset with 2,564 records to predict medical conditions from symptoms using the Random Forest algorithm with an accuracy of 99% - Optimized early diagnosis with Python and Scikit-learn, aiming to reduce delays by 40%.	
Bank Fraud Detection System Using ML 	07/2024
- Developed a model on data set with 6M+ rows to flag transactions as fraudulent or legitimate using customer history, transaction methods, and account balance. - Developed and trained a Random Forest Classifier on the dataset, achieving 98% accuracy.	
Legalith - Connects clients with lawyers 	05/2025
View Deployed Project.  - Developed a full-stack web application connecting clients with lawyers based on specializations, enabling appointment booking with real-time availability. - Designed and built a full-featured client panel with React, Tailwind CSS, Context API, Axios, Node.js, Express, MongoDB, and JWT, enabling users to seamlessly discover lawyers. - Allows clients to browse and filter lawyers, view profiles, book appointments and manage bookings all within a responsive, user-friendly interface.	

PROFESSIONAL EXPERIENCE

Intern – Defence Research and Development Organisation (DRDO)	06/2025 – 07/2025
Project: <i>Oil Spill Detection and Segmentation using Satellite Imagery.</i> 	New Delhi, India
- Worked on developing a computer vision model for automatic detection and segmentation of oil spills in satellite images with dataset having 296+ images. - Aiming to assist in maritime surveillance and environmental protection through automated oil spill monitoring.	

ACHIEVEMENTS

Soft Skills and Personality Development 	07/2024 – 10/2024
Top 2% in NPTEL Soft Skills exam among 10,000+ participants.	
Python and Machine Learning Summer Internship 	06/2024 – 07/2024
Completed 8-week internship with hands-on experience in Python and Machine Learning	
Top 300 in Woodpecker Hackathon 	07/2024
Top 300 in WoodPecker Hackathon (15,000+ teams) with an innovative project.	

POSITION OF RESPONSIBILITY

Sponsorship Member| Taraangana

Collaborated with **80+** companies and brands to secure sponsorships and partnerships for Taarangana.

EM member| IEEE(IGDTUW)

Managed **10+** events including technical workshops, seminars, and hackathons and collaborated as a team
